

Version : July 2025

Orange would like to emphasize the following points:

This information refers to external sources which are subject to change. It should therefore be used for information purposes only. Orange cannot be held responsible for its accuracy;

This information relates to (1) Orange SA 2G/3G networks closure dates for France Country and (2) Orange SA Roaming Partner's available 2G/3G networks closure dates for Countries outside France;

For Countries outside France, Orange would like to underline and draw to your attention that the 2G/3G closures dates indicated in the file for each Country are the latest ones regarding all the Roaming Partners with whom Orange works for the delivering of 2G/3G in the concerned Country but as Orange doesn't work with all of them within your specific Countries mentioned in your IoT Contract, those 2G/3G closure dates may not correspond to your current IoT contractual situation. Also, we urge you to take the greatest precautions in the exploitation of those dates and absolutely invite you to contact your Sales team who will be able to establish with you the applicable 2G/3G closure dates in the Countries corresponding to your IoT contractual situation.

Glossary

Status : Indicates if 2G & 3G are open, partially open, closed.

- *Open* : All operators in the country are open
- *Partially open* : At least one operator is still open, the others are closed
- *Closed* : All operators in the country are closed

Tentative closure : If a date is indicated, it is the latest closure date for all open operators in the country.

For Orange France* :

2 stages of closure will be done in 2026 :

- Starting March 9th, 2026, in 9 departments (09-Ariège, 31-Haute-Garonne, 32-Gers, 40-Landes, 46-Lot, 47-Lot et Garonne, 64-Pyrénées Atlantiques, 65-Hautes Pyrénées, 82-Tarn et Garonne)
- September 2026 in all French metropolitan area
